

HARSH ENVIRONMENT HANDBRAKE CONVERSION KIT

SUITS LANDCRUISER HZJ 75/78/79 and VDJ 78/79

Beat mud, abrasives and mine grime and extend the life of your Landcruiser with **Driveline's** Harsh Environment Handbrake Conversion Kit. Designed specifically for mining applications and located well clear of the heavily contaminated rear wheel area, Driveline's Harsh Environment Handbrake Conversion Kit replaces your vehicle's OE handbrake with a transmission mounted disc brake that remains fully operative under the harshest mining and offroad conditions.

Features:

- **Complete ready to bolt in kit**
- **Utilises OE handbrake lever and cable**
- **Completely mechanical design - no hydraulics required**
- **No modifications required for fitment - bolt on conversion**
- **One piece rotor design**
- **High quality zinc plated disc, galvanised calipers and stainless steel fasteners for corrosion resistance.**
