

BIGGER STRONGER CHEAPER

Driveline Services Australia are proud to offer their feature-packed heavy duty spline set upgrades on open cut and underground off-highway vehicle driveshafts.

Delivering longer life hours than standard original equipment assemblies, Driveline's heavy duty shafts are the choice of more maintenance departments.

- Increased stub outside diameter
- Larger, full-length splines
- Glide-coated barrels (subject to part number)
- Improved sealing configuration
- Enhanced dust covers
- Longer life-hours
- Bolts straight in! (No other modifications required)

SUPERIOR FROM EVERY ANGLE
